

## Year 7 French Trip Projects

French trip projects are *optional*. This means that you do not have to produce one unless you want to.

Projects should contain your French diaries and should also contain other things such as photos, menus, timetables, drawings...anything really. You can also write explanations in English to add to your diaries (for example if you want to describe the Mont Saint Michel in detail).

Photos are available on Firefly. Click on the GREEN subjects tab at the top and select French / Photographs. Most albums are now uploaded and the others will be available before the end of term. You can save copies of the ones you want and also use any photos of your own.

Your project can be in any of the following formats:

- Scrapbook.
- Produced on computer, printed out and put into a binder.
- Any suitable electronic format (PowerPoint, Explain Everything, Book Creator etc.)

There will be prizes for the best projects. Judging will take place after half term in February, so any projects handed in before half term will be eligible.

If you want any more information, please ask Mr Walker or Mr Hewitt.
