

11th May 2018

Dear Parents

Goblin Electric Car Project

Thank you for expressing an interest on behalf of your child in the Goblin go-kart project that I wrote to you about last week. With demand so high, it proved necessary to pick names at random for children to participate in our team. The children were gathered this afternoon in order that a draw could be made using an iPad app and I am pleased to tell you that your child was one of those lucky enough to be selected!

The project can only be run successfully with high standards of behaviour and competent driving skills. As outlined in my previous letter there will be a training session where these standards and skills will be taught and evaluated.

Weather permitting, this should be on **Saturday 19th May**. To make the best use of time I propose that each child attends one of two slots; either 10.30am – 12.00pm or 12.45pm – 2.15pm.

To help my planning **could you please reply to mbuck@townclose.com** stating whether you would prefer the morning or afternoon slot, or have no preference, by the end of school on Monday. This will enable me to confirm timings on Tuesday.

Yours sincerely

Mr Matthew Buck
Head of DT
