

14th September 2018

Dear Parents

F24 Electric Racing Club

Your child has signed up for the Town Close Racing F24 Club for which this letter should provide some initial details. The dozen pupils will form a team for this season's 'finals' on **Friday 5th October**, going on to help develop the car at points over the winter before racing re-commences in Spring 2019.

It is possible that some of the children might not be ready for safe and competent driving at this level. If this is the case, they can still play a very full part in the team. The Greenpower races are 90 minutes long and feature driver changeovers in pit stops which cannot be run by adults, plus there will be media and technical responsibilities.

Further details of the 5th October event will follow next week. For now, a few brief points are important:

- We will travel by school minibus
- There is no charge for the trip
- We must make an early start – **leaving Town Close at 6.15am on October 5th** – but do not expect to be late home at this point.

Information on the project can be found at <https://www.greenpower.co.uk/>, and an excellent film clip of last year's F24 Finals at the same venue is at <https://www.youtube.com/watch?v=3esTJI7rQ6c>.

The Club will meet in the DT room on **Friday 21st and Friday 28th September (4.05pm – 4.55pm)** to prepare for the Finals. Please feel free to contact me if you wish to know more.

Yours sincerely

Matthew Buck
