

Year 4 - Lesson 6 – Codespark Academy

Introduction:

We will continue to use the CodeSpark Academy website to help teach you the basics of computer science.

IMPORTANT! – The CodeSpark Academy is designed to be easy enough to use that you should be able to manage on your own once you have followed the instructions below and have it loaded. If you are struggling to use CodeAcademy and do not have an adult who is able to help you then please close it and try one of the other activities on the Firefly page.

Task 1:

You should have already watched this video in Lesson 4 but if not, please watch it now.

<https://youtu.be/AyinmdX5MVA>

Task 2:

You should now go to CodeSpark website.

If you know what you are doing then please go to the site and spend the rest of the lesson trying to complete as much as you can.

If you are not sure what to do, please complete the rest of the tasks in this lesson.

Go to the following website:

<https://codespark.com/play/>

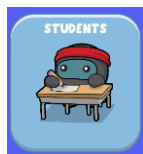

Task 3:

Try to follow the instructions below to get started.

Click on SCHOOLS

Click on STUDENTS

Click on USE CLASSROOM CODE

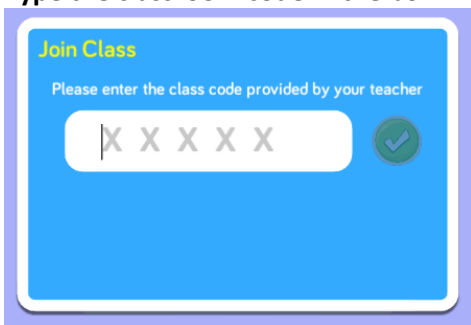

If you are struggling with this procedure, follow this video tutorial:

<https://youtu.be/uudDvLkdjvc>

Task 4:

Type the classroom code in the box

Then click on the TICK

Wait for CodeSpark to load and then click on

CLASSROOM CODE

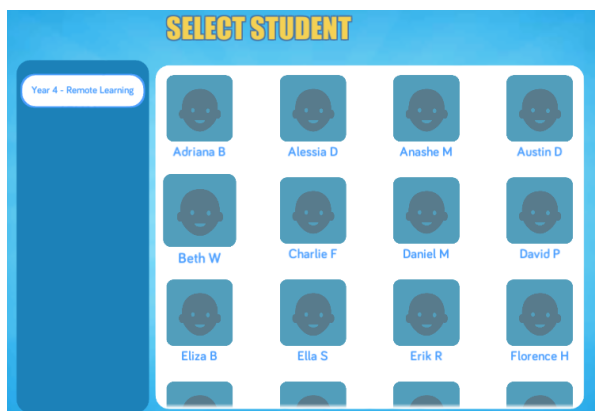

KXQXJ

If the code does not work, please contact:

itsupport@townclose.com

Task 5:

Find your name in the list and click on it

To move the list up and down, hold your mouse down on the list and keep it down whilst you move it up or down.

If you cannot find your name in the list, please contact us at itsupport@townclose.com

Task 6:

When you see this screen, click on PUZZLES

Do not click on CREATE or EXPLORE as these areas of the game are locked at present.

Task 7:

From this point you should hopefully be able to manage on your own. If you find you are struggling, **DO NOT WORRY**, just close the app and try something different on the **FIREFLY** page.

Spend as much time as you would like using the app to see how much you can learn.

The following video may help you if you get stuck.
