Don't post any P-----L information online - like your address, email address or mobile number.

Think carefully before posting P-----S or videos of yourself. Once you've put a picture of yourself online most people can see it and may be able to download it, it's not just yours anymore.

Keep your P-----Y settings as secure as possible

Never give out your P-----S

Don't become a F----D with someone you do not know

Don't M--T up with people you've met online. Speak to a trusted adult about people suggesting you do

Remember that not everyone O----E is who they say they are

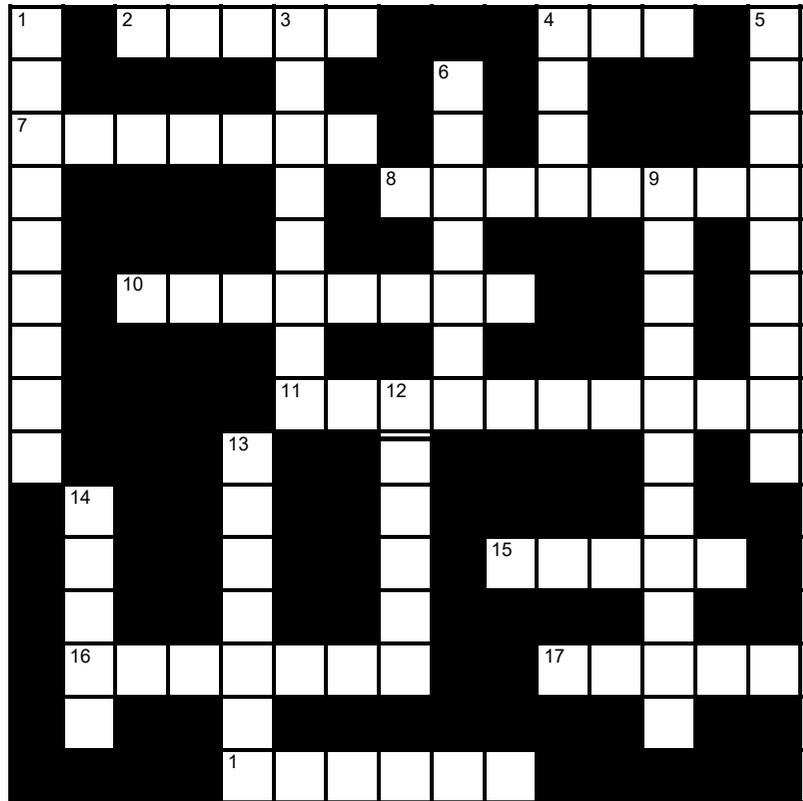

Think carefully about what you say before you P--T something online

R-----T other people's views, even if you don't agree with someone else's views doesn't mean you need to be rude

If you see something online that makes you feel uncomfortable, unsafe or W-----D: leave the website, turn off your computer if you want to and tell a trusted adult immediately.
